Right here, we have countless books british politics since 1945 the rise fall and rebirth of consensus historical association studies and collections to check out. We additionally have the funds for variant types and as a consequence type of the books to browse. The standard book, fiction, history, novel, scientific research, as competently as various other sorts of books are readily to hand here.

At this british politics since 1945 the rise fall and rebirth of consensus historical association studies, it ends stirring monster one of the favored books british politics since 1945 the rise fall and rebirth of consensus historical association studies collections that we have. This is why you remain in the best website to see the incredible book to have.
The Conservatives Since 1945: Tim Bale 2012-09-20 The Conservatives since 1945 is about how and why parties in general, and the Conservative Party in particular, make changes to the face they present to the electorate, the way they organise themselves, and the policies they come up with. This is in an-depth but comprehensive study based on original archival sources.

The UK Equity Gap: Chris Lonsdale 2019-04-23 First published in 1997, this volume investigates the important economic issue of small business finance. The inability of small firms to acquire equity finance is believed to be an important factor in the UK’s continued relative economic decline. Throughout the post-war period both the British Government and Conservative Governments have recognised this and devised micro-economic policies to address the issue. In this book the author assesses the effectiveness of these policies, particularly focusing upon the past 20 years when policy has been accompanied by the development of the UK venture capital industry. The author concludes that government policy has been largely unsuccessful in bridging the equity gap, but that the problem could be addressed effectively if only lessons were learned from the past. This book provides those lessons, and is particularly timely given that the new Labour Government is currently reviewing policy in this area.

Drink and British Politics Since 1830: J. Greenaway 2003-06-10 The issue of alcohol has never been far from British politics. Initially, governments needed to control its sale for public order reasons and because it was a major source of revenue. Then in Victorian times a powerful temperance movement arose which sought to prohibit or severely curb the ‘Demon Drink’. This in turn aroused the hostility of the ‘Trade’ and the issue became one of fierce electoral politics. After 1898 drink was interpreted more as a social reform question and then in the First World War, after a major moral panic, far-reaching measures of direct state control were imposed in the interests of national efficiency. Later in the Twentieth century alcohol use came to be seen as an aspect of leisure and town planning and, more recently, as a health issue. Drinking upon a wide range of primary sources, John Greenaway uses the complex politics of the issue to shed light upon the changing political system and to test various theories of the policymaking process. Both historians and political scientists will be interested in this study.

The Trade Union Question in British Politics: Robert Taylor 1993-01-01 This informative book examines the changing relationship between the trade unions and British governments from the making of the social settlement of 1944-1945 to the post-Thatcherite era of the Conservative political dominance of the early 1990s.

Exploring British Politics: Mark Garnett 2014-06-03 Concise, comprehensive and accessible, Exploring British Politics presents an insightful approach to British politics with a special emphasis on developments since the 2010 general election and the formation of Britain’s first coalition government since 1945. Designed to stimulate critical analysis and provoke lively debate, it provides new perspectives on two key themes - the health of British democracy and the transition from traditional models of government to more flexible forms of ‘governance’.

British Government Policy and Decolonisation, 1945-63: Frank Heinrich 2013-12-16 This book is an in-depth study of the importance of the Empire/Commonwealth in the two decades after WWII for Britain's self-image as a great power. By studying a wide range of debates on general and specific imperial problems, the book highlights the importance of the Empire-Commonwealth in the two decades after WWII for Britain’s self-image as a global power. By studying a wide range of debates on general and specific imperial problems, the book highlights the importance of the Empire-Commonwealth in the two decades after WWII for Britain’s self-image as a global power.

British Politics, Society and Empire, 1852-1945: David W. Crichton 2017-04-21 This book draws together essays on modern British history, empire, liberalism and conservatism in honour of Trevor O. Lloyd. Emeritus Professor of Modern British history at the University of Toronto for some thirty years beginning in the 1960s, with Lloyd best known for his two histories of the Empire and of domestic Britain, this book provides a great overview of debates on general and specific imperial problems, the book highlights the importance of the Empire-Commonwealth in the two decades after WWII for Britain’s self-image as a global power.

The British State Since 1945: Tom Ling 1998-03-06 This volume identifies the main changes in the British state since 1945 and evaluates their consequences. It provides students and practitioners with an understanding of the changing public sector and the relationship between these changes and the wider conduct of politics. Recent academic and political responses to the British state have been influenced by an atmosphere which is increasingly suspicious of hierarchies, bureaucracies and, indeed, the state itself. Tom Ling identifies the factors leading to this development and in the final chapter he evaluates the more important recent responses to the changed atmosphere. The British State Since 1945 will be widely read by students and practitioners of British politics and public sector change. Its concern with policy-making and policy-implementations also makes it a valuable resource for students of social welfare and economic interventions. Through its evaluation and application of a variety of theoretical and analytical approaches to the question of the British State, this book will also be of interest to everyone concerned with more theoretical debates about the nature of the state and contemporary politics.

British Social Movements since 1945: A. Lent 2001-11-07 Since 1945, Britain’s political and cultural landscape has been transformed by social movements campaigning on issues of gender, race, disability, sexuality, the environment and peace. Yet until now there has been no methodological attempt to chart the histories of these movements alongside one another. From early attempts to decriminalise gay sex to the movement against globalisation, Sex, Colour, Peace and Power takes a comprehensive approach to social movements that allows fresh insight into a neglected side of British history.

The New Politics of Class: Geoffrey Evans 2017-02-23 This book explores the politics of class in Britain over the last 70 years. It shows how changing class sizes have set in train a process that has led to working class people not voting. While differences between the classes in terms of political ideology and identity are unbridled from 50 years ago, the political parties have responded to a shrinking working class by becoming more middle class in terms of policy, rhetoric, and personnel. These political changes have had three main consequences. First, as Labour and the Conservatives became more similar, class differences in party preferences disappeared. Second, new parties, most notably UKIP, have taken working class voters from the mainstream parties. Third, and most importantly, the lack of choice offered by the mainstream parties has led to a huge increase in class based non-voting. Working class people are now much less likely to vote, and this threatens the representativeness of our democracy. They conclude with a discussion of the Brexit referendum and the role that working class alienation played in its historic outcome.

The Making of Modern British Politics: Martin Pugh 2002-02-01 The third edition of this successful text has been revised to include a new chapter on the politics of the Second World War, and to reflect recent developments in research into the period. Third edition of this insightful survey of changes in British Politics New extended to cover the politics of the Second World War and the election of 1945 Extensively revised in the light of recent research Looks at the Labour Party's evolution into a national rather than sectional party Includes updated suggestions for further reading.
